

My whole life, people thought they were teaching me to be a polite kid, but they were actually holding me back. Once I realized this, things started changing fast. I worked hard at identifying the things that successful guys were doing, and started implementing them in my own life. My confidence in business was off the charts, and women that previously saw me as a little brother or friend, started taking a romantic interest in me. The changes I was making in my life had ripple effects at every turn. I took careful notes over the years, and when I started as a dating and life coach, I made sure to give them the concrete steps that helped me, and push them towards realizing their personal goals. Here's the crazy thing: it worked, and it worked fast. I know this because I have watched 100s of men focus on the secrets of attraction, and completely transform them. The truth is this: with focus and effort, you can stand out as a man of class, superior style, and separate yourself from the boring masses of guys that pay no attention to style, posture, and overall excellence. And that is why I wrote *The 9 Secrets of Highly Attractive Men*. It is a very special book for me, and something that I cannot wait to share with you. I have identified the features of attractive men, and have given you specific exercises to help transform you into the kind of gentleman that attracts the respect of men, and the love and admiration of hordes of women. Believe it or not, you can start seeing results fast. It is no secret that becoming the optimal version of you will take some serious time and commitment. But the truth is that much of what I will tell you in this book can be implemented today. What does that mean? It means that there are changes you can make today that can begin to transform the image you project to the world. Habits take time to form, but I guarantee that you will begin to see changes from the very beginning. I could give you hundreds of examples from my own life, of men I have seen make considerable changes even in the course of a single day that I spend coaching them, that have allowed them to boost their confidence and become more attractive. This stuff is not rocket science. I really, really value simplicity. I like to write with simplicity. But I also like to be specific, and explain why, not just how. To explain the 9 habits I use a combination of stories, scientific research, lessons from history, and calls to action. My favorite feeling in the world is reading something that makes so much sense to me, it feels like I had known it all along, but just did not know how to put words to it. I think you will have this feeling reading my book. I want to open your eyes to ideas that are founded in pure logic, but that may have escaped you. You will find the simple lessons in the book refreshing, and life-changing. I want to give you simple lessons that you can start using day one. When you start implementing the secrets that I have identified, you will be joining hundreds of my clients on the path to excellence.
